Freshwater Neighbourhoods Activity

Student's Name: _____

Class: _____

1. You have seen that a very small part of the Earth's water is fresh drinking water. But did you know that a large amount of it is in the Great Lakes?

- a) We say one part out of five or $1/5$ th of the world's freshwater is in the Great Lakes. To show this fact, colour four parts of the picture blue and one part green. Label the green part as "The Great Lakes Water".

| ----- Available freshwater all over the world ----- |

- b) Why do you think we call them the "Great Lakes"?

2. Put an "S" beside every source of water that is saltwater and an "F" beside every source that is freshwater.

River ____

Hudson Bay ____

Pond ____

Atlantic ____

Icecaps ____

Great Lakes ____
