

# Arctic Voices

*\*working title*

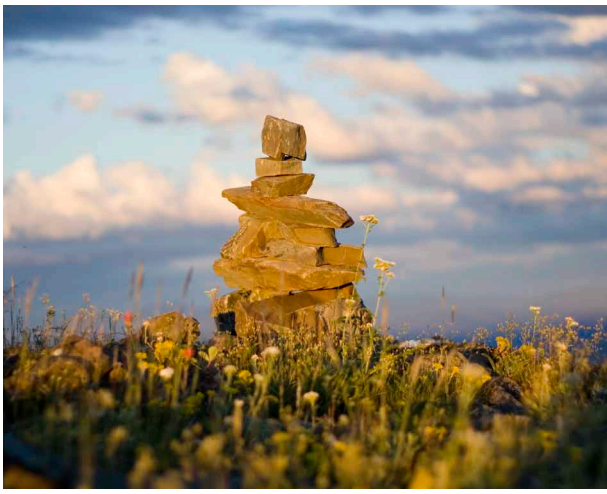

## Available for lease Winter 2015

*Arctic Voices* is a 5,000-6,000 sq ft traveling exhibit that takes visitors to the fascinating and changing world of the Arctic, through interactive and artifact-based exhibits and multimedia experiences.

Visitors will explore the impact of the changing climate in the Arctic through many lenses, including the land, sea, and ice. They will connect with the remarkable animals that live there, the resilient people that inhabit this region, and the dedicated scientists who are helping to reveal what makes this place so unique.

The emblem of the Arctic has long been the majestic polar bear, but there is much more to the Arctic landscape and its wildlife for visitors to explore. The Arctic has terrestrial and marine ecosystems interdependent of one another, supporting both land and marine animals and plants, many of which are found nowhere else on earth. People are an integral part of the Arctic; they have lived there for millennia and mastered skills of Arctic survival. Now faced with a changing environment, they are witnessing first hand the impacts of climate change on their lives.

Hear their voices and explore life through the eyes of the people and animals who call the Arctic home.

## Introductory Experience

*Arctic Voices* provides visitors with the content and context to explore, and ultimately be inspired to protect this fragile and special region. The challenge of global climate change has gripped public attitudes, and the Polar Regions are “canaries in the climate change coal mine.”

## My Connection to the Arctic

Learn about historic discoveries, hot button issues and hear from researchers who have called the Arctic their home. Vote on Arctic issues after hearing multiple perspectives.

## Arctic Animal Adaptations

Compare yourself to Arctic animals and discover their adaptations for such a harsh environment. Learn about threats facing polar bears in the wild. Enjoy a crawl-in polar bear ‘den’ with motion-triggered sounds and lights.

A great photo opportunity, stand beside a model of a bowhead whale tail - the largest Arctic whale. Visit the showpiece of *Arctic Voices*, Whales of the Arctic Theater, a whale shaped theater that draws you into its depths to reveal stunning footage of the Arctic's most gentle giants.

## Land, Water and Ice

Crawl beneath the ‘ice’ for a unique vantage point. Observe the beauty of the Undersea Gallery and test your Arctic knowledge with an interactive quiz. Find the answer to the question how big are icebergs? Take a tour of the tenacious Arctic flora, which come alive in the summer months.

## Circumpolar Peoples

Witness the many peoples that call this area their home. Through genuine artifacts and artwork, observe their culture and traditions that are unique to the Arctic Peoples.

### Dimensions

5000-6,000 sq. ft.

### Rental Fee

\$150,000 USD  
plus in-bound shipping  
Three-month rental period

### Availability

Tour begins Winter 2015

### Additional Materials

Marketing Guide  
Educators Guide  
Operations Manual  
Installation Manual
