

Colouring with Chlorophyll

Grade 3 Growth and Changes in Plants

## **Answers**

## **Chromatography Experiment**

- 1a) What colour or colours do you see on the coffee filter?

  You should be able to observe different coloured bands of green from the different types of chlorophyll inside the plant.
- 1b) Draw out your coffee filter. Make sure you get all the different coloured bands. Use colours if you like.

Results will vary but should show the different coloured bands on the coffee filter.
