CORPORATE MEMBERSHIP PROGRAM

A NOTE FROM OUR CEO

Science is the most powerful tool we have to address the challenges of our world. Science literacy is not only relevant and important to understanding and participating in our changing world; it is fundamental to building an innovative society, paving the way for progress and a brighter future.

Through our programs, events and exhibits, Science North ignites experimentation, critical thinking, and a sense of wonder to individuals from around the world. Our entertaining, educational, and inclusive science experiences empower individuals to become better informed and more innovative, inspiring them to forge a brighter future for everyone.

Science North is a not-for-profit organization and a registered charity. As an agency of the Government of Ontario, the Ministry of Tourism, Culture, and Sport provides Science North with a base operating grant, representing 40% of its annual operating budget. The remaining 60% must be self-generated. As a not-for-profit, our success is derived from collaborating with businesses like yours to foster mutually beneficial relationships.

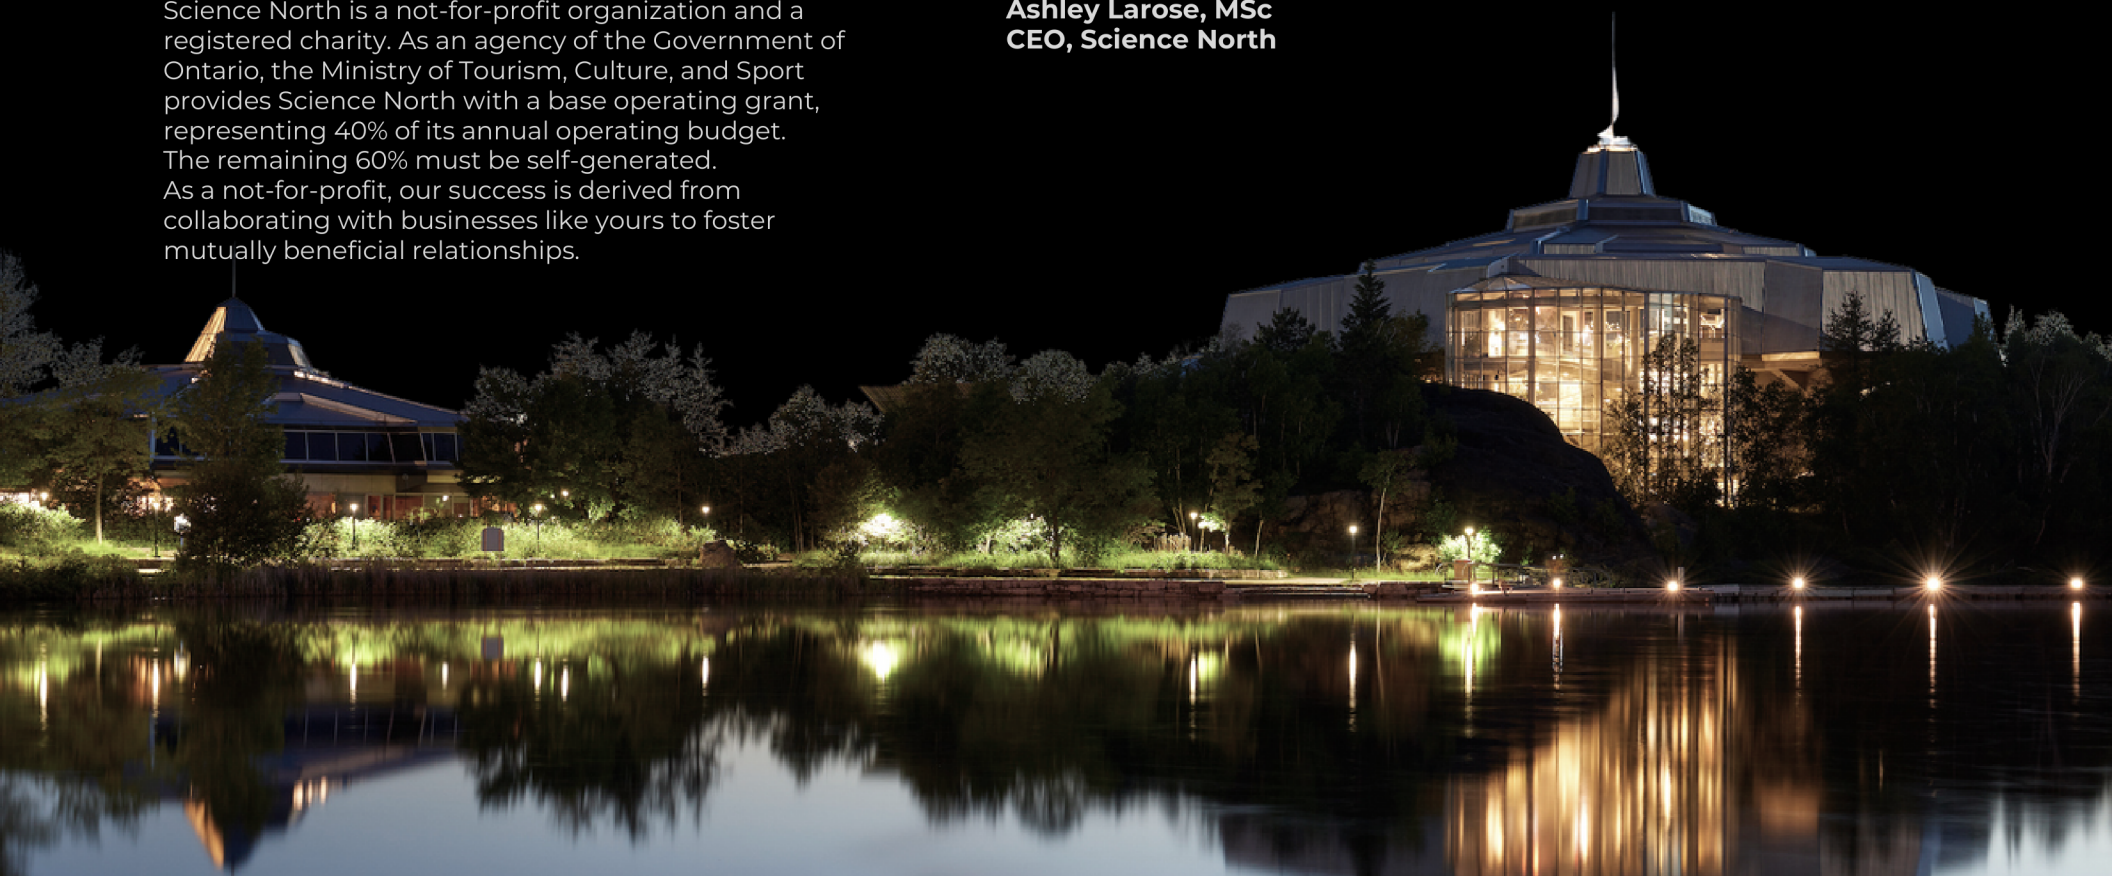

Your membership provides critical support to operations and activities including exhibit and program development, while helping keep admission fees affordable as possible, ensuring science is accessible to ALL!

We greatly appreciate your consideration and look forward to welcoming you and your team to Science North!

Kind regards,

Ashley Larose, MSc
CEO, Science North
